ActiveKEY

ActiveKEY is the **first wireless lockbox key** designed by real estate professionals for real estate professionals. ActiveKEY **keeps itself updated 24/7** through frequent cellular connections to the Supra network. Virtually no attention is required from you.

When an ActiveKEY opens one of your iBoxes, you receive a **real-time instant alert on your key**. You know right away when someone has entered your listings! For details, log on to KIMweb at the Supra website.

ActiveKEY is easy to use. Simply scroll through the ActiveKEY menu and follow instructions displayed in a small window. Enjoy lots of **friendly features** including a **built-in flashlight** and a **brightly lit keypad and display window**. The ActiveKEY comes with a power cord, a mini-USB cable and a clip-on pouch with a pocket for your business cards.

The ActiveKEY is a **dedicated lockbox key** manufactured by GE Security. It is not a cellular phone, nor a text-messaging device, and you cannot add software to the ActiveKEY.

An optional car charger is available for busy real estate professionals. Charge your ActiveKEY while on the way to your next showing.
