

Faster Access into Listingbook

Listingbook and CRMLS have streamlined the login process for Listingbook.

Starting Friday, November 19th, Listingbook will no longer prompt you to enter your Scout Login information when accessing Listingbook directly from the CRMLS Matrix Platform.

Note:

If you access Listingbook outside of the CRMLS Matrix Platform, you will still need to enter your Scout Login information.

About Listingbook:

Listingbook is an easy to use client manager that allows you automate, track, and analyze client and market activity. With Listingbook you will be able to identify when prospects turn into clients, and when clients are ready to close the deal.
