

New and Improved MRMLS Mobile

MRMLSMOBILE.com

Did you know you can search for MLS listings on your mobile phone?

MRMLSMobile.com powered by **CARETS** gives you the flexibility of searching **all listings** throughout **Southern California** on your mobile phone.

MRMLSMobile.com allows you to search through 5 Property Types (Residential, Residential Income, Residential Income, Land and Mobile), Agent Roster, History, Matrix Save Searches and obtain your Matrix Contacts.

Features:

- Access CARETS listings in real-time
- Search for specific listings by MLS Number or Street Address
- Perform general searches by area, property type or new listings
- View listing data including original price, list price, square footage, sale type, property description, showing instructions, agent remarks, and more!
- View property photos and map location

Getting Started:

1. From your mobile phone, open your internet browser.
2. Go to www.mrmlsmobile.com and log in to the system by using your User Name, Pin and SafeMLS Password.
3. Begin your search.

***Note, your wireless carrier may charge extra for internet usage on your mobile phone. Please call your wireless provider for rates and charges.**
