

Searching with Speed Bar

The CRMLS Matrix Platform's Speed Bar is your shortcut to searching for listing, open houses, and agent information.

The Speed Bar is conveniently located on every page in the CRMLS Matrix Platform directly below the navigation tabs.

To search for a property by its APN number, enter APN followed by the Assessor's Parcel Number and click the Magnifying Glass icon. For example, to search for APN number 123456789 enter APN 123456789 in the Speed Bar.

To search for a property by its multiple listing number, enter the number directly in the Speed Bar and click the Magnifying Glass icon. You can also search for multiple properties by entering each listing number separated with spaces.

Training

[Click here](#) to view a Quick Reference Guide on using the Speed Bar.
